Mr. Harrington,

You may file hyperlinked documents in ECF, as long as you follow the directions set down in Section X. of the ECF Procedures for the District of Colorado (Civil) which governs hyperlinks. The training database login and password you used to practice docketing prior to being given permission to file electronically may be used by you to continue practicing.

Thanks,

Chris Vagner  
ECF Project Manager  
United States District Court  
District of Colorado

"Sean" &lt;esoxlucios@msn.com&gt;

Subject attempt to file hyperlinked briefs in ECF

Chris:

I'd like to start filing hyper-linked briefs in CM/ECF. I remember you saying that your team is moving in that direction.

I have here a hyperlinked version of a brief that I filed last night. However, I was "afraid" to file it in CM/ECF, because I didn't know how your document conversion system would handle it. The hyperlinks are actually embedded attachments in Acrobat 7 and, if it appended them

onto the end of the ECF filing, that would be, well, bad.

So, I thought it would be better to try it out in the training database first. May I have a user ID/password for beta-testing, or would you rather try it out, yourself?

I have attached hereto a non-hyperlinked version of the brief and one with a few hyperlinks in it with the same file name, but with a "\_x" suffix.

. . . with kind regards,

Sean Harrington[attachment "2005-12-05\_PF\_Response-to-State-Motion-to-dismiss.pdf" deleted by Chris Vagner/COD/10/USCOURTS] [attachment "2005-12-05\_PF\_Response-to-State-Motion-to-dismiss\_x.pdf" deleted by Chris Vagner/COD/10/USCOURTS]
